ABOUT THE COURSE

Jyotiṣa Madhyamā — Intermediate Course in Vedic Astrology

Madhyamā takes a student who can read a chart and makes them a careful analyst. You learn to confirm every promise of the rāśi chart in the vargas, measure strength with Ṣaḍbala and Aṣṭakavarga, and time events with more than one daśā.

The course adds the Jaimini and Nāḍī views, answers questions through Praśna, chooses times through Muhūrta, and closes with life-area analysis and responsible remedies. Four case-study clinics are spent entirely on real charts.

QUESTIONS

Frequently asked

I have not done Praveśikā. Can I join?
Yes, if you already cast charts and use Vimśottarī Daśā. We have a short free placement conversation to check — otherwise we suggest starting with Praveśikā.

How is Madhyamā different from Praveśikā?
Praveśikā teaches you to read a chart. Madhyamā teaches you to verify and time it — through vargas, strength, several daśās, Jaimini and Praśna — and to write a full report.

What are the case clinics?
Four extra sessions given entirely to real charts: students analyse, present and are corrected live.

What if I miss a class?
Recordings are uploaded within 24 hours, and you keep access to them for life.

Can I consult after Madhyamā?
Many students begin consulting for family and friends after Madhyamā. For professional practice and research, continue to Pāraṅgata.
