ABOUT THE COURSE

Jyotiṣa Pāraṅgata — Advanced Course in Vedic Astrology

Pāraṅgata — 'one who has crossed to the far shore' — is for serious students who want mastery and the ability to test what they practise. It goes beyond technique into the classical systems that most courses only mention.

You study the Jaimini Sūtras and their daśās, Nāḍī and KP methods, medical and financial astrology, advanced Praśna and the professional side of practice — and you complete a supervised research paper using sound method, assessed with a viva.

QUESTIONS

Frequently asked

Who is Pārahgata for?
Madhyamā graduates and practising astrologers who want depth in the classical systems and the ability to test their methods.

I have not done Madhyamā. Can I join?
Yes, after a short placement assessment on two charts. If gaps show up, we will suggest Madhyamā first.

What is the research paper?
In Months 7–8 you choose a question, build a small data set, test it with sound method and write it up. It is assessed with a viva.

Is there one fee, or different packages?
One fee. Every student gets the complete course — classes, research supervision, written feedback on the paper, viva and certificate. You only choose how to pay.

Will medical astrology let me diagnose illness?
No. You learn to read health tendencies and timing; the course is clear that astrology never replaces a doctor.
